B.14	Dependence on other entities within the group	<p>The Issuer is not directly dependent on other entities within the Group with regard to the conduct of its principal activities.</p> <p>The determination of the Issuer's capital requirement and internal capital adequacy is affected by the Group's overall financial position. Similarly, the Issuer's credit rating is also affected by the Group's overall financial position. Any changes in the Group's overall financial position may, therefore, have derived effects on the Issuer's ability to conduct its principal activities, i.e. granting of loans for vessels.</p>

It should be noted that the Issuer may decide to terminate its credit rating cooperation with the rating agency or choose to cooperate with other rating agencies.</p>	Rating	S&P	Issuer rating	BBB+ (negative)	The Institute in general	A (negative)

		<p>S&P has determined a negative outlook for the Issuer’s credit rating. S&P’s outlook assesses the potential direction of Issuer’s long-term credit rating over the intermediate term, but an outlook is not necessarily a precursor of a rating change or future action by S&P. Given the negative outlook by S&P there is a risk that the Issuer’s rating may be lowered in the short to medium term.</p> <p>In 2016, the Issuer elected to cease soliciting ratings from Moody’s Investors Service (Moody’s). Any ratings published by Moody’s ratings entities in connection with the Issuer are unsolicited and based purely on publicly available information.
